OBJECTIVE

Results-driven Full Stack Developer specializing in the MERN stack and AI-powered applications. Passionate about problem-solving through clean software development and building scalable, user-centric web solutions.

EDUCATION

Oriental Institute of Science and Technology

B.Tech, Computer Science Engineering

Bhopal, Madhya Pradesh

2024 – 2028

Model Public Higher Secondary School

12th Grade

Ganj Basoda, Madhya Pradesh

2023 – 2024

PROJECTS

Eco Voice | *React, Node.js, Express, MongoDB, Web Speech API* | [Live](#) | [GitHub](#)

May 2026 – Present

- Engineered a voice-first productivity platform leveraging the Web Speech API to enable hands-free task management.
- Developed a scalable RESTful backend using Node.js, Express, and MongoDB to handle real-time CRUD operations.
- Deployed a responsive React frontend with an optimized UI, enhancing accessibility and overall user experience.

Career Compass AI | *React, Node.js, Express, MongoDB, Gemini AI* | [GitHub](#)

June 2026 – Present

- Architected an AI-driven career guidance application utilizing Gemini AI to map student skills to industry demands.
- Implemented secure file uploads and dynamic, personalized career roadmaps based on intelligent profile evaluation.
- Designed a modular frontend architecture in React, ensuring clean code practices and seamless API integrations.

Jarvis Desktop Assistant | *Python, SpeechRecognition, PyAutoGUI, pyttsx3* | [GitHub](#)

May 2026

- Developed a Python-based voice assistant utilizing SpeechRecognition and PyAutoGUI to automate system-level operations.
- Integrated voice-triggered execution for application launching, browser navigation, and custom desktop workflows.
- Optimized task efficiency by engineering hands-free controls for daily computer operations and environment management.

Netflix UI Clone | *HTML, CSS, JavaScript* | [Live](#) | [GitHub](#)

Sept 2024 – Oct 2024

- Designed a pixel-perfect, responsive clone of the Netflix landing page demonstrating advanced UI structuring proficiency.
- Implemented modern CSS architectures and reusable layouts to ensure consistent cross-device visual fidelity.
- Deployed the application with optimized assets and structured semantic HTML to improve accessibility and performance.

TECHNICAL SKILLS

Languages: C++, Java, Python, JavaScript, HTML5, CSS3

Frontend: React.js, Tailwind CSS

Backend: Node.js, Express.js

Database: MongoDB

Frameworks & Tools: Git, GitHub, VS Code, Postman, Cursor

CERTIFICATIONS

Programming in Java – IIT Kharagpur (NPTEL)

Python in Data Science – IIT Madras (NPTEL)

HTML5 – The Language – Infosys Springboard

CSS3 – Infosys Springboard
